

## Unit 10: International School House

This Unit differs slightly from other units in that it contains other languages which are featured in a 'flip-over' text box. When you enter the International School House, choose the language you want to see and hear. All audio and text instructions for the learning objects are then presented in that language.

### Objectives

- To develop English language skills in speaking, listening, reading and writing.
- To develop computer skills such as mouse control, drag and drop, selecting icons, navigating between objects and using drawing tools.
